

Heavy Duty Clothes Rail Assembly Guide

Congratulations on your purchase of our heavy-duty clothes rail. Please follow our very easy 4-point assembly guide below. You may choose to use your clothes rail without the castor wheels, if so, please start at section 2. Happy hanging 😊

1. Insert the **[A]** 4 x wheels into the **[B]** bungs and press firmly until you hear a noticeable "click"

2. Attach **[C]** left & right side supports to the wheel section **[B]** followed by **[D]** left and right bottom rails as shown above. **** Do not connect together the bottom rail at this point ****

3. Connect **[E]** middle part of the top hanging rail to **[C]** left & right side.

4. Finally, pull **[D]** bottom rails together and click lock into place to complete the clothes rail. Once complete your clothes rail is ready to use. **** Tip: [D] 2 x bottom rail need pulling apart to connect & create the tension ****
