Fully assembled easel

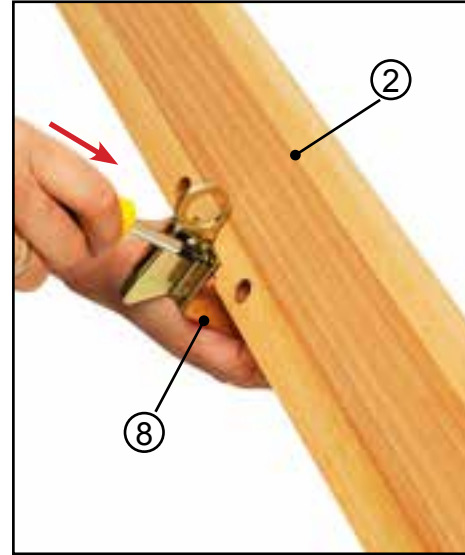

# Easel Assembly Instructions

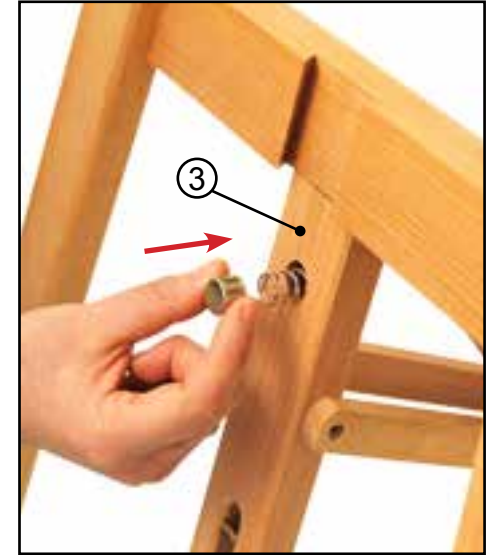

**1** Assemble the sides to the centre frame using bolts supplied.

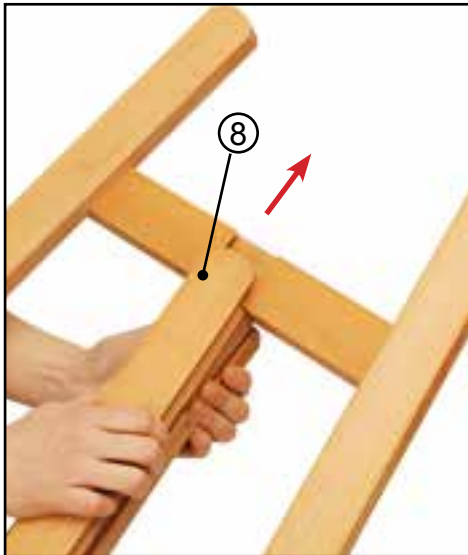

**2** Screw the top of the sides to the centre frame.

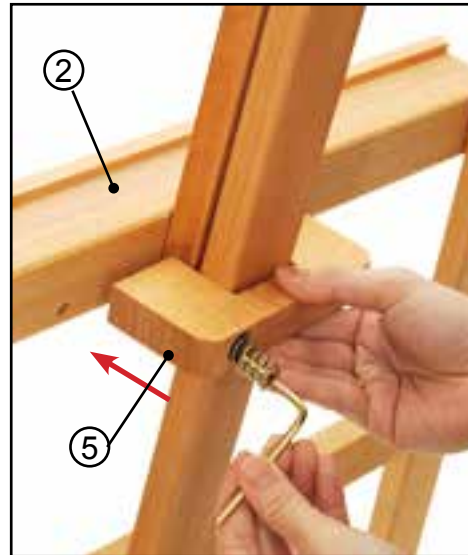

**3** Screw the bottom of the post to the easel lip.

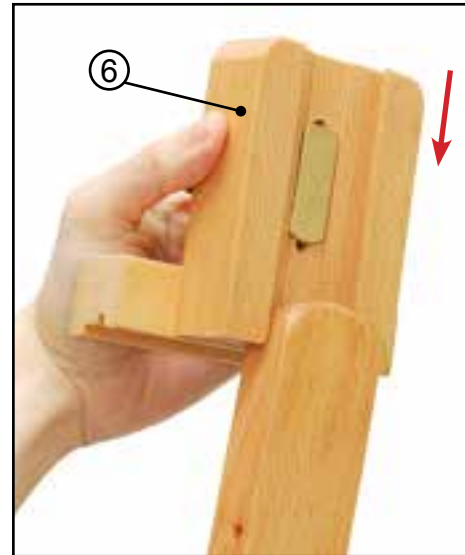

**4** Insert the spring and the cap into the hole at the top of the centre frame.

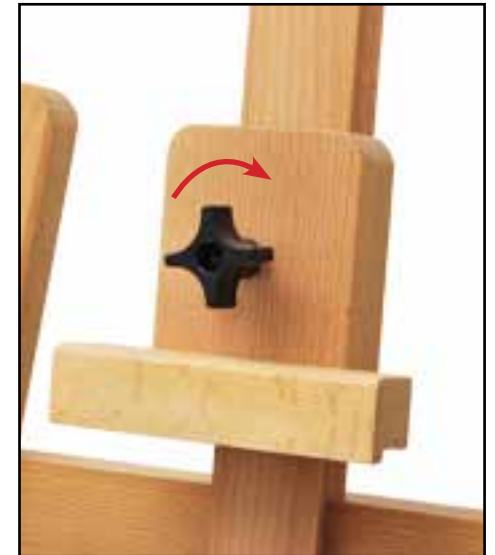

**5** Slide the post into the grooved recess.

**6** Bolt the back bracket to the easel lip using the spring and bolts provided.

**7** Place the metal cap on the underside of the top header and slide it down the post.

**8** Tighten the dial at the desired height.
