

EALMU020 - Instructions

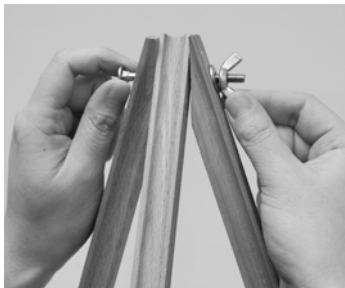

1. Remove all pieces of the easel from the carton.

2. Select a bottom leg and a top leg. Bottom legs have feet on the end and nest into the groove of the top legs.

3. Locate the pre-drilled holes on the legs and thread the shortest wing nut and screw through both legs, then tighten. Repeat step for all 3 legs.

4. Thread the 2nd longest wing-nut and screw through all 3 legs at the top. The 2 angle cut legs rest flush against the back leg.

5. Clamp the tray over the front legs using the longest wing nut and screw, and tighten.

6. Screw the eyelet hook with chain to the tray.

7. Attach the other end of the chain with hook, to the back leg.
